And They Bewitched the People!

Beginning in the time of Pharaoh, and extending to this day, the sorcerers of the tawaghit have played the same role in distracting the hearts and minds of the people away from true faith, and blinding them to true knowledge, in obedience to the taghut and his interests To achieve this goal, the sorcerers have dedicated all their energies and gathered all their resources, for an around-the-clock war against the prophetic method and its campaign.

In describing the scene in which Pharaoh asked his sorcerers to dissuade the people from the call of Musa - peace be upon him- Allah said: "So when they did, they deceived the eyes of the people, stunned them, and made a great display of magic" (Al-A'raf: 116). Interpreters have said: "This means that they detracted from the people's ability to see the truth of their distortions and the illusions they created." Interpreters have also said: "So, they made people believe that what they saw was really true and not merely a figment of their imagination." Interpreters further explained: "They tricked their hearts from perceiving the truth" and "they conjured up visions and illusions for people to see."

Today, media sorcerers utilize the same methods of treachery and illusion to twist facts. In fact, in their ability to trick and lead astray, they have superseded the abilities of the sorcerers of the past. Not only have they visually tricked people, they have now bewitched their minds and hearts and have been able to constrict people up in boxes so narrow, they are unable to walk away from the paths delineated for them by the tawaghit of the West and East. They are now able to control people's emotions, interests, attitudes, and choices. More than that, they now control when they are happy, when they cry, when they are angry, and when they are sad! And all this takes place away from the controls of Shari'ah.

The Qur'an has clarified the real reason behind the declaration of war given by the sorcerors of yesterday and today against the followers of the prophets. The Almighty says about Pharaoh: "I truly fear that he may change your traditions or cause mischief in the land" (Gafir: 26). At-Tabari, may Allah have mercy on him, said: "Meaning, their current way of life; and to him, mischief meant to act upon Allah's commandments." Furthermore, Ibn Kathir explained: "Pharaoh feared that Musa would lead people astray and change their rituals and traditions. Pharaoh became a sermonizer. Meaning someone who admonishes people, and who fears for people from Musa – peace be upon him." Others commented by saying: "This was as strange as it could have been. The worst of creation was warning people to not follow the best of creation! This is the type of distortion and misinformation that could only be believed by those whom Allah describes as: 'And so he fooled his people, and they obeyed him. They were truly a defiant people.'"

This is exactly what is happening today in the various media venues run by the Arab tawaghit in mimicking the Jews, the Christians, and other non-Arabs who actually control the media engines and platforms, and who move them according to what serves the interests of their war on Islam. They do all this under the pretext of "humanitarianism," empathy, and fear for the lives of people, just as Pharaoh had alleged before them.

The media sorcerers of today have cast people into robotic molds that utter – if they speak at all – identical phrases, sharing daily, the same scum, in the same way. They are the living dead, whose only movement is that of their wooden fingers tapping on social networking icons, moving in its maze without hope of exit.

In this harsh and frozen age, many people have sought out images and idols, drawing near to them in admiration and love. This image is repeated daily, and through it the sorcerers of the tawaghit twist these people to the right or to the left as they see fit! We recently saw this in the exaggerated reaction people had to the child who fell in a well, while at the same time ignoring other children who were killed by American airstrikes - an image the "America interest" wanted to cover up so as to blind us to the massacre by suddenly creating an "international interest" inside a well! And to this end, Arab and non-Arab tawaghit rounded up all their sorcerers to distract people from the "American massacre" which the taghut Biden sorely wanted to bury in his pretext of conducting a "mistake free mission" to prop up his faltering political tenure. It comes as no surprise that the "flock" danced to the tune of American interest.

Did the eyes of millions watch the child in the well with sympathy, while their eyes were blinded and their hearts hardened – for they are like stones or harsher - toward the thousands of children being killed daily by hunger, cold weather, and disease in the horror camps of Iraq, Sham, and others?! Or did many fall into the wells of degradation while the child alone made it out?!

The insincere fools gave incident descriptions we have never heard before like "the interest of the Ummah's unity." What kind of unity and ummah gets its interests chosen by the "media experts in the White House," in order to distract it from the heroics of the Ummah of tawhid in the Ghwayran prison?

A quick tour of the media platforms and websites will demonstrate the extent to which the Jews and Christians were successful in penetrating, not security structures, but minds and value systems. The security breech is a given, however, what is left of a person who loses his ideology and gets his values corrupted? The Almighty Allah says: "It is only those who are faithful and do not tarnish their faith with falsehood who are guaranteed security and are rightly guided" (Al-An'am: 82).

The digital army in these days leads the battlefields for Jews and Christians as they precisely carry out the plans of shaytan, jinn, and humans. They are plans mapped out to dissuade people from faith in the Almighty Allah and to distract them with issues manufactured by newsrooms and produced by the lenses of cable television stations, as requested by "experts, consultants, and journalists" that, in the lands of the Crusaders, have become closer to the decision-making centers than military experts and consultants.

All of this compels the followers of the Messengers and the knights of daw'ah, who work in the media fields, to multiply their efforts in combating the battalions of sorcerers gathered by the contemporary Pharaohs, to defend Islam and its ideology from their hounds and to protect its followers from the nets and continuous conspiracies cast by the sorcerers.

The soldiers of media jihad must know that the responsibility of combating the colossal number of media platforms that are battling Islam, rest on their shoulders. Their success can only be achieved through sincerity, accountability, persistence, and certainty that victory in the media war is in concert with victory on the battle field, as both require huge sacrifices in order to decimate the crowds of kuffar and render their sorcerers impotent. A sorcerer will never succeed, for Allah prevails over His affairs, but most people do not know.
